

PREMIUM DRY EYE COMPRESS

The quality and comfort you should expect in a compress.

Hypoallergenic. Use hot or cold.

Heat in the microwave or oven.

Includes machine-washable wicking cover.

Lasts for years.

HydroHeat Technology

Absorbs moisture from the air, releasing it as clean, deep-penetrating moist heat.

HydroBlock

Prevents heat and moisture from escaping out the front - concentrating therapeutic heat on eyelids.

Exclusive features:

Machine-washable, removable wicking cover.

Silver+antimicrobial cover fights bacterial growth and odor.

Patented elastic nose piece is lined with silicone to improve fit and comfort.

Hypoallergenic.

Retains moist heat for 10 minutes.

Use hot or cold!

HOT

Helps alleviate symptoms of:

Dry eye

Blepharitis

Styes

Grittiness

Irritated/sore eyes

Meibomian gland dysfunction

COLD

Soothing relief of:

Hay fever/allergies

Sinus headaches

Migraines

Inflammation

TMJ (hot or cold)

Tired, itchy, puffy eyes

*Microwave for 25 seconds
or heat in conventional oven at
240° Fahrenheit for 4-6 minutes.*

*Place in freezer for at
least 1 hour before use.*

Insert compress in wicking cover prior to heating or cooling.
